PROFESSIONAL SUMMARY

Result-oriented Frontend Developer with 3+ years of professional experience and deep focus on modern JavaScript ecosystems. Specialized in **Next.js, Astro, React, and Vue/Nuxt**. Expert in building high-performance, accessible, and responsive web applications using **TypeScript** and **Tailwind CSS**.

Proven ability to take full ownership of features from discovery to production, collaborating with cross-functional teams to deliver scalable, high-quality solutions. Strong **problem-solving skills, ownership, and adaptability in remote environments**.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, PHP

Frameworks & Libraries: React.js, Next.js, Vue.js, Nuxt 3, Astro.js, GSAP

State Management: Zustand, Redux Toolkit

Styling & UI: Tailwind CSS, Material-UI, Chakra UI, Responsive Design, UX/UI Principles, Figma Integration / Translating Designs

Backend & Tools: API Integration (Axios/Fetch), Supabase, Prisma, Git/GitLab, Vercel Deployments

Architecture & Testing: SSR (Server-Side Rendering), Component-based UI, Performance Optimization, Jest, Playwright, Agile Methodologies

Soft Skills: Problem-solving, Ownership, Team Collaboration, Adaptability

PROFESSIONAL EXPERIENCE

Frontend Developer | Diari Ara

Feb 2024 – Jan 2026 | Barcelona, Spain

- Developed and maintained high-traffic web platforms for institutional and corporate clients, including the Generalitat and various City Councils.
- Built interactive and performant websites using **Astro, React, Next.js, GSAP**, focusing on core web vitals and user engagement.
- Collaborated closely with the Frontend Lead to enforce modern development practices, ensuring code consistency and scalability across multiple projects.
- Translated complex design requirements into clean, maintainable code using **SCSS** and **Tailwind CSS**.
- **Key Achievement:** Optimized critical pages, improving load times and enhancing user engagement metrics.

Frontend Developer | Infonet

Nov 2023 – Feb 2024 | Remote

- Developed the frontend of Infonet's internal software platform, improving internal workflows through user-friendly interfaces.
- Collaborated with backend teams to ensure seamless data flow and efficient API integrations using **TypeScript** and component-based architecture.
- Optimized frontend performance and code maintainability through modern **ES6+ practices** and SCSS.

Frontend Developer | Front & Conde

Nov 2022 – Oct 2023 | Remote

- Architected modern web applications for major European clients using **Vue 3, Nuxt 3, and Tailwind CSS**.
- Managed the full project lifecycle independently, from initial requirements gathering and client communication to final delivery.
- Maintained high standards of code quality and reliability in a fully remote environment, consistently meeting tight deadlines.

Aircraft Maintenance Engineer | Vueling

Aug 2021 – Mar 2022 | Barcelona, Spain

- Performed inspection, diagnosis, and repair of turbine engines and complex aircraft systems (hydraulics, electrical, and avionics).

- **Key Achievement:** Applied rigorous attention to detail and analytical problem-solving in high-stakes environments, skills now transitioned into building robust software.

PROJECTS

Personal Portfolio & Interactive Labs | joanguinart.dev

- Explore all the projects I've worked on, from interactive microsites to data-driven web applications. Built using **Astro.js**, **TypeScript**, **Tailwind CSS**, and modern frontend frameworks, my portfolio showcases **high-performance, accessible, and visually polished experiences**.

EDUCATION

Frontend Developer (React.js) | IT Academy | 2022

Aircraft Maintenance Engineering | EFAV | 2017 – 2019
